Foundations for Success

Training for Disability Professionals

Psychotropic Medication Monitoring

Psychotropic Medication Side Effect
Monitoring with the DISCUS and the MOSES

Psychotropic Medication Monitoring

\$59.00

For any individual taking psychotropic medication, monitoring medication for effectiveness is mandatory according to current 245B licensing requirements. Proper training and knowledge is essential to completing all required documentation.

Participants will learn about and discuss:

- Psychotropic medication classifications and their associated side effects
- Assessment, documentation, and tracking of side effects through the DISCUS and MOSES
- Emergency and non-emergency initiation of psychotropic medication
- Behavioral Support Plan content and development
- Completion of the Psychotropic Medication Use Checklist

Audience: Nurses, management, and executive level staff responsible for psychotropic medication monitoring for the individuals they serve will benefit from this first time or refresher course!

**Sign up for both sessions for \$99
and lunch is included!**

Psychotropic Medication Side Effect Monitoring with the DISCUS and the MOSES

\$69.00

Individuals taking psychotropic medications may be at risk for developing side effects including Tardive Dyskinesia (TD), an abnormal involuntary movement disorder. Because of this risk, careful monitoring of the individual using a standardized assessment may be required of the licensed provider. The DISCUS is the most common assessment and is best completed by trained individuals and/or medical health professionals.

Participants will learn about and discuss:

- The prevalence and prognosis of Tardive Dyskinesia (TD)
- TD and other abnormal involuntary movement disorders and medications that may cause these disorders
- Characteristics of TD and how to distinguish them from behavioral stereotypes and mannerisms
- How to conduct the DISCUS exam and properly complete and score the DISCUS
- How to understand and accurately complete the MOSES
- Health care follow up for abnormal scores

Through lecture, DVD presentation, demonstration and practice, participants gain knowledge and experience in conducting the DISCUS.

Audience: This course is an excellent resource for managers, lead staff, and nursing professionals who are involved in psychotropic medication monitoring for the individuals they support.

WHAT CUSTOMERS ARE SAYING ABOUT STAR:

"The instructor was great. Funny but also very knowledgeable. She provided real world, on the job examples."

"Easy to follow, well explained, great metaphors for remembering, full class participation"

"I really enjoyed your class. It was one of the best trainings I have been to in a long time. I feel a lot more competent about my job."

"The instructor made the class fun and interesting for the entire class. The instructor was extremely well prepared."

"Everyone at STAR is a class act. You really show the people you teach what there is to love about being in this field."

"Informative, clear, and concise - very effective training"

Learn, Grow, Excel!

ONLINE TRAINING IS HERE!

STAR Services is excited to announce we have officially launched our online training program! We've been in testing mode for the past several months, working hard to create a comprehensive, affordable, online training option for disability providers. Our initial course offerings include topics staff can use for both orientation training and annual review. These topics include: Human Services Overview, Individual Rights, Data Privacy, Rule 40, Vulnerable Adult, Maltreatment of Minors, Mandated Reporting, Medication Administration and many more.

We are also developing an extended library of topics that will be available at a later date to cover topics such as specific diagnoses, person centered philosophies, team building, supervisory skills as well as other topics that will cover rules and regulations in the disability field.

Visit www.starsvcs.com/onlinetraining or contact Jennifer May at 651-644-3140 x257 or jmay@starsvcs.com for more information.

10% DISCOUNT ON 3 OR MORE FULL DAY REGISTRATIONS!

Choose one session for \$59.00 or both sessions for \$99.00 per individual!
Lunch is included with full day registrations - indicate if you would like a vegetarian meal.
